

PANDUIT

Panduit was born from innovation. In 1955 we launched our first product, Panduct Wiring Duct, a new invention that uniquely organized control panel wiring and allowed new wires to be added quickly and neatly. Since that time Panduit has introduced thousands of problem solving new products and remained committed to providing innovative electrical and network infrastructure solutions.

Today, customers look to Panduit as a trusted advisor who works with them to address their most critical business challenges within their Data Center, Enterprise, and Industrial environments. Our proven reputation for quality and technology leadership coupled with a robust ecosystem of partners across the world enables Panduit to deliver comprehensive solutions that unify the physical infrastructure to help our customers achieve operational and financial goals.

Te Basics:

Founded: 1955

World Headquarters: Tinley Park, Illinois, United States

Our Mission:

Panduit and our partners work with you to overcome business challenges and implement real-world solutions that create a competitive business advantage. Panduit offers the broadest range of solutions, from data centers and intelligent buildings to manufacturing operations, to help you build a smarter, unified business foundation.

Technology Leadership:

Panduit develops innovative physical infrastructure solutions that meet the rapidly changing needs of our clients, from hardware and software to Advisory Services. This commitment is supported by investment in advanced research, solutions-focused product development, world-class manufacturing, and collaboration with customers at the forefront of technology.

Partner Ecosystem:

Our best-in-class partner ecosystem offers a comprehensive portfolio of services that span the project lifecycle, from planning and design to delivery, deployment, maintenance, and operation. Panduit business partners — distributors, and certified architects, consultants, engineers, designers, system integrators, and contractors — are qualified to help you achieve your objectives and realize predictable and measurable results.
