

Sennheiser Business Solutions

Headsets & Conferencing Solutions

Certified for Skype for Business

SENNHEISER

The Microsoft–Sennheiser cooperation

Getting the most out of your Skype for business investment means matching with the best possible communication tools – because ultimately, your users' experience is only as good as the headset or speakerphone you choose. Our Certified for Skype for Business headsets and speakerphones let users communicate with plug 'n' play simplicity and with proven compatibility in renowned Sennheiser high-quality audio. It simply doesn't get any better.

Sennheiser headsets and speakerphones have been fully tested to ensure compatibility with Skype for Business, Microsoft Teams and Microsoft® Office 365. You can simply answer or end calls, adjust volume, or mute calls through the headset or speakerphone's call control features.

With Sennheiser headsets and speakerphones gives superior sound quality and excellent comfort for all Contact Center, Office and Unified Communications professionals. It's a seamless, high end-audio experience that promises the optimal user experience.

Make the Cortona Connection

Cortana is Microsoft's voice-controlled personal assistant, who makes users lives easier by providing them with answers, reminders and help with other daily tasks. With a Cortana certified headset from Sennheiser, getting the help you need is just a conversation away, thanks to crystal clear communication that makes sure you're always understood.

Try and buy with our evaluation program

Our Sennheiser – Microsoft Evaluation Program gives you the chance to try out our headsets and speakerphones first-hand in your normal working environment – before making a final decision on a solution for your Skype for Business deployment.

For more information or to enroll in the program, please visit: www.sennheiser.com/try

Even in the busiest working environments, clearly understandable conversations are an absolute must for today's business communications. However, perfect speech intelligibility is only one part of enabling you and your listener to stay focused on your tasks. Also, the usability of your device has a strong impact on your performance in every day's business.

Sennheiser headsets deliver unparalleled sound, and also best-in-class ease of use. Combined with the high-grade design, they make a real difference in business communications.

With the right choice of materials and exceptional craftsmanship, every Sennheiser headset is built to last. Giving you a highly comfortable wearing experience that will improve the quality of your working day and boost your productivity.

matters

Sennheiser Wireless DECT Headsets

Experience
the quality
of freedom

For modern business professionals, the advantages of a wireless headset solution are obvious: They are no longer tied to their desks and conversations on the go keep business moving. Hands-free calling, and the ability to set up ad hoc meetings on the fly can boost job satisfaction while improving a company's overall efficiency.

A Sennheiser DECT solution offers the possibility of connecting to up to three communication devices simultaneously, and a wide range of wearing styles to suit all individual preferences and work situations. Designed for maximum flexibility, comfort and efficiency, they are ideal for fatigue-free, all day use in a wide variety of modern office environments.

Experience
the quality
of freedom

Whether working on the move, out in the field, at home or abroad, Sennheiser Wireless Bluetooth® headsets and ANC headsets are sleek, smart, and easy to use. Equipped with the latest technology, these ideal communication companions are designed for busy professionals and business travelers who value the perfect blend of high quality sound and speech, day in, day out.

For ultimate comfort you can choose between different wearing styles – ear sleeve, ear hook and headband wearing – or a combination.

Transcom chooses the Century™ Series.

„Customer contact has definitely improved. The fact that you can understand the customer perfectly, makes the conversation a lot more natural. You can be engaged in the conversation and busy with the system at the same time, enabling you to help the customer all in one go.“

Kor Boelsma
Team Leader, Transcom

Simplicity calling

The Sennheiser portfolio of wired headsets is ideal for contact centers, offices and Unified Communications professionals – where users are mostly stationary. Simple to use, with no battery or charging, a wired solution is as easy as it gets, with plug and play connectivity.

The wide range of wearing styles and ear pads make it simple to find a headset that you can wear comfortably all day.
